

## **USF Psychology Undergraduate Internships (2025)**

- Internships can help students apply their scholarly knowledge in the real world
- Completing an internship successfully is associated with better employment opportunities upon graduation with a B.A. in psychology and better success with graduate school acceptance for applied-oriented graduate programs
- Internships can be completed for credit or not for credit, and they can be paid or unpaid

### **Internship options in the USF Psychology Department:**

CLP 4941: Community Practicum in Mental Health (3 credits): For Fall and Spring, Face-to-face 1 hour class on Tampa campus;
