

### Feasibility Form for New International Partnerships

This form was carefully designed as a resource to help colleges, faculty, and administrators pursue successful and sustainable international partnerships guided by strategic goals for global engagement. The [Global Discovery Hub](#) contains all the active international agreements that USF currently is a party to. The Hub is an online, interactive repository that should be consulted prior to entering into a new agreement. Once it has been determined that USF does not already have an agreement in place with the proposed partner, please complete the requested information below, share with your department chair, dean, or VP for signature, and then submit for review and consideration by USF World and the Office of General Counsel. You may email the file to [\[redacted\]](#).

Department/College/Campus:	
Campus Address:	
Phone Number:	
Email:	
Identify the primary contact(s) for this initiative at USF (name, title, college, department, email) if different from the information listed above, <u>and</u> a list of relevant stakeholders who are involved with this initiative.	
Proposed Partner Institution Information	

## General Partnership Information

Is there a previous collaboration

For Degree Collaboration and Academic Articulation Agreements Only

<p>What type of collaborative degree program or academic articulation agreement is proposed? Please specify the target programs/degrees.</p>	<ul style="list-style-type: none"> <li>Transfer of UG credit/students to a USF academic program</li> <li>Transfer of GR credit/students to a USF academic program</li> <li>Creation of a dual degree program</li> <li>Other type of joint degree academic delivery (e.g. cotele)</li> <li>Establishment of an instructional site abroad</li> </ul>
<p>Is there demonstrated market demand for the program/degree? How has this demand been assessed? Describe the level of competition for the students you intend to recruit for the proposed academic program.</p>	

Can the College meet its current "domestic" demand for courses/programs? Is there extra
