

ENVIRONMENT

Help forge a global movement to protect our planet. Volunteers lead grassroots efforts in their communities to protect the environment and strengthen understanding of environmental issues. They teach environmental awareness in elementary and secondary schools and to youth groups and community organizations, empowering communities to make their own decisions about how to protect and conserve the local environment. Volunteers also address environmental degradation by promoting sustainable use of natural resources. For more information visit Peace Corps: <https://www.peacecorps.gov/volunteer/what-volunteers-do/#environment>

If you choose Environment, take three courses from one of the following areas:

- | | | |
|--|-------------------------|-----------|
| ○ Environmental Science or related field | ○ Natural Resources | ○ Biology |
| ○ Natural Resources Conservation | ○ Wildlife Management | ○ Ecology |
| | ○ Global Sustainability | ○ Geology |
| | ○ Forestry | |

Recommended courses:

PHC 3320 Environmental Health Science

IDS 4239 Intro to Global Sustainability

ENV 4001 Environmental Systems Engineering

College of Engineering Undergraduate Catalog: <http://ugs.usf.edu/pdf/cat1617/15Engineering.pdf>

And build 50 hours of related field experience through an activity such as:

- Educating the public on environmental or conservation issues, or working on environmental campaigns
